

WHAT IS CLAIMED IS:

1. A magnifying holder comprising:
  - a front;
  - a back;
  - a spine joining the front to the back; and
  - a magnifying lens attached to the front or the back.
2. A holder in accordance with Claim 1, wherein the front includes a hole therethrough, and the lens is attached to the front and over the hole.
3. A holder in accordance with Claim 1, further comprising:
  - a lens hinge attached between the lens and the back.
4. A holder in accordance with Claim 3, wherein the lens hinge comprises a supple material.
5. A holder in accordance with Claim 3, wherein the back includes a first edge and a second edge, the first edge being longer than the second edge, the lens hinge attached to the long edge.
6. A holder in accordance with Claim 5, wherein the long edge is opposite the spine.
7. A holder in accordance with Claim 5, wherein the long edge is adjacent the spine.

8. A holder in accordance with Claim 3, wherein the back includes a first edge and a second edge, the first edge being longer than the second edge, the lens hinge attached to the short edge.
9. A holder in accordance with Claim 1, wherein the back is substantially rectangular and includes a first edge and a second edge, the first edge being about 9.5 inches long, and the second edge being about 4 inches long.
10. A holder in accordance with Claim 1, wherein the lens is substantially rectangular and includes a first edge and a second edge, the lens first edge being about 3 inches long and the second edge being about 5 inches long.
